She is also a fellow of the Cambridge Centre for Environment, Energy and Natural Resource Governance (C-EENRG). The Ursula Brunner Lecture Series

The Ursula Brunner Lecture Series was initiated in 2021 by Prof. Dr. Helen Keller, Prof. Dr. Johannes Reich, and Dr. Corina Heri in honour of the late Dr. Ursula Brunner († 2019), a distinguished lawyer and legal academic who contributed prolifically to the development of environmental law in Switzerland. The lecture series is dedicated to the relationship between environmental law and human rights, especially in the context of the climate crisis. Aiming at a multidisciplinary perspective, we invite distinguished speakers to share their views on some of the most pressing issues in the field to which the lecture series is devoted.
